AUTHOR INDEX

Abrol, I.P., see Srivastava, R.C. and Abrol, I.P.
Babel, U. (Göttingen, Germany)
Vergleich von Mikrogefügemerkmalen einiger Humusbildungen mit Hilfe einer Schätzmethode. 347
Barratt, B.C. (Lower Hutt, New Zealand)
Differences in humus forms and their microfabrics induced by long-term topdressings in hayfields 209
Beckmann, W. (Hamburg, Germany)
Bodengeographie der östlichen Sierra de Gredos (Spanien) 299
Blasco, M.L. and Cornfield, A.H. (London, Great Britain)
Effect of soil moisture content during incubation on the nitrogen-mineralizing characteristics of the soils of Columbia (South America) . . 19
Borchert, H. (Giessen, Germany)
Untersuchungen der Bodengefügeveränderung von meliorierten Böden . . 371
Burger, R. du T., see Stanton, D.A. and Burger, R. du T.
Cornfield, A.H., see Blasco, M.L. and Cornfield, A.H.
Daniels, R.B. and Gamble, E.E. (Raleigh, N.C., U.S.A.)
The edge effect in some ultisols in the North Carolina Coastal Plain . . . 117
Dormaar, J.F. (Lethbridge, Alta., Canada)
Infrared spectra of humic acids from soils formed under grass or trees . 37
Dormaar, J.F. (Lethbridge, Alta., Canada)
Infrared absorption spectra of mineral matter derived from electro-dialysed humic acids 131
FitzPatrick, E.A. (Aberdeen, Great Britain)
Soil nomenclature and classification 91
Frei, E. (Zürich, Switzerland)
Mikromorphologische und chemische Untersuchungen eines entbasten Parabraunerdeprofils des schweizerischen Mitellandes und Deutung seiner Entwicklungstendenz 289
Gamble, E.E., see Daniels, R.B. and Gamble, E.E.
Geyger, E. (Hamburg, Germany)
Die Strukturbildung in den Humushorizonten von Böden der hohen Sierra Nevada (Spanien). 229
Jeanson, C. (Versailles, France)
Migrations chimiques dans un sol artificiel: étude micromorphologique . 325
Lafeber, D. (Mount Waverley, Vic., Australia)
The optical determination of spatial (three-dimensional) orientation of platy clay minerals in soil thin-sections 359
Le Roux, J. and Sumner, M.E. (Pietermaritzburg, South Africa)
Studies on the soil solution of various Natal soils 125
Matthews, B. (Harpenden, Great Britain)
Automatic measurement of frost-heave: results from Malham and Rodley (Yorkshire) 107
Méndez, J. (Santiago de Compostela, Spain)
Organic compounds in humic acid extracts. 27
Moore, A.W., see Russell, J.S. and Moore, A.W.
Moore, A.W. and Russell, J.S. (St. Lucia, Qld., Australia)
Comparison of coefficients and grouping procedures in numerical analysis of soil trace element data 139
Mückenhausen, E. (Bonn, Germany)
Das wissenschaftliche Werk von Prof. Prof. h.c. Dr. Dr. h.c. Walter L. Kubiena 165
Parfenova, E.I. and Yarilova, E.A. (Moscow, U.S.S.R.)
Humus microforms in the soils of the U.S.S.R.. 197
Russell, J.S., see Moore, A.W. and Russell, J.S.
Russell, J.S. and Moore, A.W. (St. Lucia, Qld., Australia)

Use of a numerical method in determining affinities between some deep sandy soils. 47
Rutherford, G.K. (Kingston, Ont., Canada)
A micropedological study of the genesis of a gray-brown podzolic soil in southeastern Ontario (Canada) 277
Smolíková, L. (Prague, Czechoslovakia)
Polygenese der fossilen Lössböden der Tschechoslowakei im Lichte mikromorphologischer Untersuchungen. 315
Srivastava, R.C. and Abrol, I.P. (Hissar, India)
Non-linear thermodynamics of irreversible processes and transport of matter and energy through soil systems 69
Stanton, D.A. and Burger, R. du T. (Bloemfontein, South Africa)
Availability to plants of zinc sorbed by soil and hydrous iron oxides . . . 13
Stanton, D.A. and Burger, R. du T. (Bloemfontein, South Africa)
A rapid polarographic method for the determination of zinc in soil extracts and plant-ash solutions 7
Sumner, M.E., see Le Roux, J. and Sumner, M.E.
Van Baren, F.A. (Amsterdam, The Netherlands)
Editorial - Conception, birth and namegiving of a new periodical. 5
Von Buch, M.W. (Reinbek, Germany)
Mikromorphologische Untersuchungen von Strukturelementen und Kieselsäurebildungen in älteren vulkanischen Böden der Collipulli-Serie, Frontera, Südchile. 249
Yarilova, E.A., see Parfenova, E.I. and Yarilova, E.A.
Zachariae, G. (Freiburg/Breisgau, Germany)
Der Einsatz mikromorphologischer Methoden bei bodenzoologischen Arbeiten 175

SUBJECT INDEX

Ameliorated soils
Change of fabric of ameliorated soils (H. Borchert) 371

Artificial-soil study
Micromorphological study on chemical migration in artificial soil (C. Jeanson) 325

Australia
Use of a numerical method in determining affinities between some deep sandy soils (J.S. Russell and A.W. Moore) 47

Book review
P.F.J. van Burg and G.H. Arnold (Editors), Nitrogen and Grassland. Proceedings of the First General Meeting of the European Grassland Federation 77

Canada
A micropedological study of the genesis of a gray-brown podzolic soil in southeastern Ontario (G.K. Rutherford) 277

Carolina
The edge effect in some ultisols in the North Carolina Coastal Plain (R.B. Daniels and E.E. Gamble) 117

Chemical migration
Micromorphological study on chemical migration in artificial soil (C. Jeanson) 325

Chemistry of soils
Micromorphological study on chemical migration in artificial soil (C. Jeanson) 325

Chile
Siliceous accumulations in older volcanic soils of the Collipulli Series, Frontera (M.W. von Buch) 249

Clay minerals
Optical determination of spatial (three-dimensional) orientation of platy clay minerals in soil thin-sections (D. Lafeber) 359

Columbia
Effect of soil moisture content during incubation on the nitrogen-mineralizing characteristics of some soils (M.L. Blasco and A.H. Cornfield) 19

Czechoslovakia
Polygenesis of fossil loess soils in the light of micromorphological investigations (L. Smolíková) 315

Editorials
Conception, birth and namegiving of a new periodical (F.A. van Baren) . 5
On the special issue dedicated to Prof. Dr. W.L. Kubiena (A. Jongerius) 163

Frost-heave
Automatic measurement of frost-heave: results from Malham and Rodley, Yorkshire (B. Matthews) 107

Geography of soils
Soil geography of the eastern Sierra de Gredos, Spain (W. Beckmann). . 299

Great Britain
Automatic measurement of frost-heave: results from Malham and Rodley, Yorkshire (B. Matthews). 107

Hints to authors. 83

History of soil sciences
The scientific work of W.L. Kubiena (E. Mückenhausen) 165

Humic acids
Infrared absorption spectra of mineral matter derived from electro-dialysed humic acids (J.F. Dormaar) 131
Infrared spectra of humic acids from soils formed under grass or trees (J.F. Dormaar). 37
Organic compounds in humic acid extracts (J. Méndez) 27

Humus
Comparison of some microfabric features of selected humus formations (U. Babel) 347
Differences in humus forms and their microfabrics induced by long-term topdressings in hayfields (B.C. Barratt) 209
Humus microforms in the soils of the U.S.S.R. (E.I. Parfenova and E.A. Yarilova) 197
Structure formation in the humus layers of soils in the high Sierra Nevada, Spain (E. Geyger) 229

In Memoriam
Prof. José Maria Albareda Herrera. 79

Loess soils
Polygenesis of fossil loess soils of Czechoslovakia in the light of micro-morphological investigations (L. Smolíková) 315

Microfabrics
Change of fabric of ameliorated soils (H. Borchert) 371
Differences in humus forms and their microfabrics induced by long-term topdressings in hayfields (B.C. Barratt) 209
Microfabric features of selected humus formations (U. Babel). 347
Optical determination of spatial (three-dimensional) orientation of platy clay minerals in soil thin-sections (D. Lafeber) 359

Micromorphology of soils
Editorial on the special issue dedicated to Prof. Dr. W.L. Kubiena (A. Jongerius). 163
The scientific work of W.L. Kubiena (E. Mückenhausen) 165
Micromorphological methods in soil zoology research (G. Zachariae). . 175
Humus microforms in the soils of the U.S.S.R. (E.I. Parfenova and E.A. Yarilova) 197
Differences in humus forms and their microfabrics induced by long-term topdressings in hayfields (B.C. Barratt) 209
Structure formation in the humus layers of soils in the high Sierra Nevada, Spain (E. Geyger) 229
Micromorphological investigations of structure elements and siliceous accumulations in older volcanic soils of the Collipulli Series, Frontera, southern Chile (M.W. von Buch) 249

A micropedological study on the genesis of a gray-brown podzolic soil in southeastern Ontario, Canada (G.K. Rutherford) 277
Micromorphological and chemical investigations of a skinned brown-earth profile in central Switzerland and an interpretation of its development tendency (E. Frei) 289
Soil geography of the eastern Sierra de Credos, Spain (W. Beckmann) . . 299
Polygenesis of fossil loess soils of Czechoslovakia in the light of micromorphological investigations (L. Smolíková) 315
Micromorphological study on chemical migration in artificial soil (C. Jeanson) 325
Comparison of some microfabric features of selected humus formations (U. Babel) 347
The optical determination of spatial (three-dimensional) orientation of platy clay minerals in soil thin-sections (D. Lafeber) 359
Investigations of change of fabric of ameliorated soils (H. Borchert) . . . 371

Microrelief
The edge effect in some ultisols in the North Carolina Coastal Plain (R.B. Daniels and E.E. Gamble) 117

News
Forthcoming events (November 1967–September 1969) 81

Nitrogen
Effect of soil moisture content during incubation on the nitrogen-mineralizing characteristics of the soils of Columbia (M.L. Blasco and A.H. Cornfield) 19

Numerical analysis
Comparison of coefficients and grouping procedures in numerical analysis of soil trace element data (A.W. Moore and J.S. Russell) 139

Podzolic soils
The genesis of a gray-brown podzolic soil in southeastern Ontario (G.K. Rutherford) 277
Micromorphological and chemical investigations of a skinned brown-earth profile in central Switzerland and an interpretation of its development tendency (E. Frei) 289

Siliceous accumulations
Micromorphological investigations of structure elements and siliceous accumulations in older volcanic soils of the Collipulli Series, Frontera, southern Chile (M.W. von Buch) 249

Soil grouping and classification
Use of a numerical method in determining affinities between some deep sandy soils (J.S. Russell and A.W. Moore) 47
Soil nomenclature and classification (E.A. FitzPatrick) 91

Soil solution
Studies on the soil solution of various Natal soils (J. le Roux and M.E. Sumner) 125

Soil zoology research
The use of micromorphological methods in soil zoology research (G. Zachariae) 175

South Africa
Studies on the soil solution of various Natal soils (J. le Roux and M.E. Sumner) 125

South America
Effect of soil moisture content during incubation on the nitrogen-mineralizing characteristics of the soils of Columbia (M.L. Blasco and A.H. Cornfield) 19
Micromorphological investigations of structure elements and siliceous accumulations in older volcanic soils of the Collipulli Series in southern Chile (M.W. von Buch) 249

Spain
Soil geography of the eastern Sierra de Gredos (W. Beckmann) 299
Structure formation in the humus layers of soils in the high Sierra Nevada (E. Geyger) 229

Switzerland
Micromorphological and chemical investigations of a skinned brown-earth profile in central Switzerland (E. Frei) 289

Thermodynamics
Non-linear thermodynamics of irreversible processes and transport of matter and energy through soil systems (R.C. Srivastava and I.P. Abrol) 69

Trace elements
Comparison of coefficients and grouping procedures in numerical analysis of soil trace element data (A.W. Moore and J.S. Russell). 139

Ultisols
The edge effect in some ultisols in the North Carolina Coastal Plain (R.B. Daniels and E.E. Gamble) 117

U.S.A.
The edge effect in some ultisols in the North Carolina Coastal Plain (R.B. Daniels and E.E. Gamble) 117

U.S.S.R.
Humus microforms in Russian soils (E.I. Parfenova and E.A. Yarilova). 197

Volcanic soils
Structure elements and siliceous accumulations in older volcanic soils in southern Chile (M.W. von Buch) 249

Zinc
A rapid polarographic method for the determination of zinc in soil extracts and plant-ash solutions (D.A. Stanton and R. du T. Burger). 7
Availability to plants of zinc sorbed by soil and hydrous iron oxydes (D.A. Stanton and R. du T. Burger) 13
